

The regulations for the International draughts composition contest in memory of Alvydas Jovaišas(01-01-1942---05-2010)

1. The Lithuanian Draughts Compositions Amateurs Union is commemorating the 75<sup>th</sup> birthday of Alvydas Jovaišas with a contest. The regulations were coordinated with the CPI.
2. The contest will take place between the 1st of December, 2015 and the 1st of January, 2017 and will be carried out according to the CPI FMJD International Rules (RI) for problems (Part I) and for competitions (Part II).
3. Only problems without the kings in the Initial position will be accepted. Furthermore, they have to be at either the Rules of Master (RM) or Rules Superior(RS). Problems at the level of Rules of Base ( RB) will not be considered.
4. Eligible submissions are: new problems and those published after the 1st of January, 2013. Problems submitted to other competitions either before or during the contest will be rejected or disqualified.
5. Co-operation and co-authorship is forbidden.
6. The contest has three categories for submissions in draughts-100. The following are the criteria for each category:
  - 6.1. Category A  
Problems-miniatures that have the following distribution of forces: 5 (black draughts)x5, 5x6, 6x5, 6x6, 6x7, 7x6, 7x7.  
Theme: first two moves of the black draughts are capturing moves.
  - 6.2. Category B  
Medium problems that have the following distribution of forces: 9x10, 10x9, 10x10, 10x11, 11x10, 11x11, 11x12, 12x11, 12x12.  
Theme: short endgame position: the final is either K46/K5 or K5/K46. The final can be reached either after a final strike of whites or as a result of an endgame.
  - 6.3. Category C  
Large problems that have the following distribution of forces: 12x13, 13x12, 13x13, 13x14, 14x13, 14x14, 14x15, 15x14, 15x15.  
Theme: during a combination move the majority jump rule is used at least four (4) times for black draughts.
7. Participants can offer up to two compositions in each category, indicating the category and the full solution until the moment the victory of the white draughts leaves no doubts. Solutions should be given in a short form, indicating only compositional variants and compositional false directions and proof of the initial positions legality if in the initial position the white draughts are attacked by the black draughts as the coordinator publishes these solutions on websites listed in these regulations. If the problem has been published previously, the author has to indicate the date and place of publishing.
8. All problems will be ranked separately in each category and receive points based on their ranking in the category as follows: 1<sup>st</sup> place – 100 points, 2<sup>nd</sup> place – 97 points, 3<sup>rd</sup> place – 94 points, 4<sup>th</sup> place – 92 points, 5<sup>th</sup> place – 88 points, 7<sup>th</sup> place – 87 points and so on reducing the number of points by one accordingly. Problems can only be awarded 0 points based on objective criteria.
9. The final score of a participant is determined by adding up the points received for the four (4) best compositions regardless of the category. This means that all compositions in all three categories will be considered.
10. If participants have the same final score, then the final score is determined by either
  - 10.1. Adding up the points for the 5 best performances;
  - 10.2. Adding up the points for the 6 best performances.
11. The winner of the contest is awarded a medal and a certificate. The top three participants are

awarded cash prizes:

1<sup>st</sup> place – 70 euros;

2<sup>nd</sup> place – 50 euros;

3<sup>rd</sup> place – 30 euros.

12. The judges of the contest are: P. Shkludov (Belarus), A. Tavernier (France), S. Žilevičius (Lithuania). Consultant is A. Polevoy (Israel). R. Mackevičius (Lithuania) has been appointed the coordinator of the contest.

13. The participants should send their submissions until the 1<sup>st</sup> of June, 2016 to the coordinator of the contest R. Mackevičius at
